

# POWERLOCK® AMSTERDAM WHEEL CLAMP HISTORY

## THE TEN YEARS OF SUCCESS MILESTONE

**1993**

After ten years of active success, the city council of Amsterdam decides to enforce stricter parking rules. The Powerlock® type Amsterdam Wheel Clamp is still the preferred and only used wheel clamp.

## INTERNATIONAL SUCCESS FOR THE POWERLOCK® TYPE AMSTERDAM

**2003 - PRESENT**

The Powerlock® type Amsterdam is the preferred wheel clamp to enforce parking rules by both governments and the private sector. The type Amsterdam becomes the standard in the market for wheel lock solutions.

## FIRST WHEELCLAMP MOUNTED IN AMSTERDAM

**1983**

The city of Amsterdam is starting to enforce its parking laws with Powerlock® security locks. The first ever Powerlock® Type Amsterdam is mounted on a car in collaboration with the city council.

## POWERLOCK HAS A NEW OWNER

**1997**

With a new owner, the Powerlock® security products are making national as well as international success. More governments and city councils are enforcing parking laws with the Powerlock® Type Amsterdam wheel clamp.

## NEW POWERLOCK TYPE AMSTERDAM

**2019**

After years of development and R&D, the Powerlock Group has introduced their newest type of Powerlock® Type Amsterdam wheel lock.

This new wheel clamp is the successor of the traditional Powerlock® Type Amsterdam, and is becoming the new standard for government- and private sector.
